July Program

The July program will be on sharpening. Chip Siskey has put on excellent sharpening demonstrations before and will once again share his techniques with us. The program will also have a hands-on section so bring your tools with you and let a master help you get them into fine working order.

Chip and Kent attended 26th international AAW symposium in San José, California. They noticed that a lot of the demo lathes were equipped with small LED lamps that put out a bunch of light. They learned that they came from IKEA. Besides purchasing lamps for themselves, they donated one to the club. Thanks, guys!
